All Of Cradock High is proud of Arlene Livingston and Steve Cutchins, our 1980 Homecoming King and Queen.

For the Senior class, the last homecoming is the most memorable. It is the occasion when all students, old and new, gather to reminisce . . . This year's theme was "We've Come a Long Way." The clubs and organizations in the school united to produce an extravagant display of bright colored floats. The alumni of the classes of '70 and '55 joined the excitement of the night. The fans were entertained during halftime by the Cradock High School Marching Band under the direction of Mr. William Gibson.

The highlight of the halftime activities was the crowning of the Homecoming King and Queen, Steve Cutchins and Arlene Livingston, by our new principal, Mr. Raymond Hale. The evening was a tremendous success and the Student Cooperative Association deserves much credit for organizing an entertaining and enjoyable evening for all.

In the Coast Guard you'll learn the mechanics of saving lives.

When there's a family marooned by a flood, a sail boat in trouble on San Diego Bay, a boating accident on the Intracoastal Waterway, the Coast Guard goes.

It could be by helicopter, a motor lifeboat, or a sleek Coast Guard cutter. Whatever the way, we can't afford any mechanical failures.

We're in the business of saving lives, and we're proud of the job we do. Last year, we answered over 70,000 distress calls, and saved or otherwise prevented the loss of over \$3,037,961,000 worth of property.

We need people with mechanical aptitudes in the Coast Guard. Young people who want to help others while they help themselves.

There are dozens of skills you can acquire: become an expert on gas and diesel engines, helicopter repairs, small boats, hydraulics.

Or, you can learn navigation, electronics, communications, or any number of useful, career-oriented vocations. Most importantly, you can learn at our expense.

The pay is good, too. Over \$500 a month to start, with your first raise right after boot camp. And that's money you won't have to budget to room and board because we furnish those free. Plus free dental and medical care, and 30 days of paid vacation every year.

If you want to further your education and get college credits, we can help. You'll also be eligible for other benefits when you get out. Or, if you decide to stay in, you can get a bonus for re-enlisting plus excellent retirement benefits at an age when you can do something with them.

If you've got a way with things mechanical, give the Coast Guard serious thought. We want bright, young, eager people who want to do something with their lives. While you're helping others, you help yourself.

So, if you're thinking hard about a good future, are a young person between the ages of 17 and 26 and wanting that good future right now, contact your local recruiter for more information.
